**Public Input Needed on Future of Upper Court Street**

(BINGHAMTON, NY) The Binghamton Metropolitan Transportation Study, in cooperation with the Town of Kirkwood, is preparing a corridor study of Upper Court Street, between Colesville Road and the Binghamton city line.

The study will include recommendations related to safety and efficiency for all roadway users and beautification of the area.

If you live, own property, work or travel in the study area, you can help shape the recommendations and the future of Upper Court Street by taking a visual preference survey at <http://uppercourt.questionpro.com/>.

For more information, you can contact BMTS at (607) 778-2443.
